

VIEWS OF OLD NORWICH, ENGLAND, AFTER WHICH NORWICH, CONN., WAS NAMED

Norwich had 85,222 inhabitants in 1881. It has its origin in the Castle erected as a stronghold by the East Anglian Kings and resorted to as a place of safety by the inhabitants of Venta Inconorum, who gave the place its name. It has a public library of 20,000 volumes, and the library of the Norwich Literary Institution has 15,000 volumes. She should feel proud of her American offspring.

It is a City of about Three Miles in Width and Breadth, and is Skirted on the North and East by the River Yare. It was given the name of North-wic, or Northern Station

Bird's Eye View of City of Norwich Made by Engineer Chas. E. Chandler in 1876
